Science

K-6 <http://www.eduplace.com/science/hmsc/> & <http://www.eduplace.com/science/hmxs/> *Houghton Mifflin* *NOTE: to make a complete science course, you’ll want to use materials and printables (like Family newsletters, Cricket Connections and Discover Simulations) from BOTH links, PLUS read library books found in the bibliography and add in worksheets from places like www.enchantedlearning.com or www.greatschools.org/worksheets/science/*

5-8 Biology www.biology4kids.com Chemistry www.chem4kids.com/
Astronomy <http://www.cosmos4kids.com/> Physics <http://www.physics4kids.com/>

High School

FHSST- date 2005, presumed non-CCSS http://www.nongnu.org/fhsst/1_news.html

K-6 Health and Fitness *Harcourt- Be sure to get the activity book and the teaching resources*

http://www.harcourtschool.com/menus/health_fitness/planning_resources.html

Social Studies

1-6 www.mhschool.com/socialstudies/2003-5/teacher/workbooks.html *McGraw Hill (2003) This is a supplemental program and would require the addition of library books, YouTube videos, or web research to complete the learning program.*

<http://www.eduplace.com/ss/hmss/> For this, you’ll want to click Lesson at a glance for Monday, read a library book on the topic, Do a craft or project, a map and for upper grades, activities and other resources. K-2 have no additional resources, which is not an issue because that age only needs 3 days/week of social studies. If you want to extend the learning, a good coloring page and word search are excellent. (You can also add pages from other programs like the workbook above and use only those that mesh well!) Here is another supplement: <http://www.eduplace.com/ss/wtp/>

Other History resources <http://www.fordham.edu/Halsall/index.asp> non-previewed
